

Stroke Education Groups

These small group education sessions are for anyone affected by stroke. They cover a range of topics and provide an opportunity for you to connect with others also affected by stroke in your community.

Support for Young People

It can be especially hard for young people when a parent or loved one has a stroke. Children and teenagers can call 0800 What's Up (0800 942 8787) to talk to a counsellor for free.

Free resources specifically for young people affected by a parent or loved one's stroke are also available on the Stroke Foundation's website.

Online Café

If you want to connect with others affected by stroke from the comfort of your own home, you can attend the Stroke Foundation's online café. This is a free online meeting held on the second Wednesday of each month at 11AM. Each session has a different speaker and topic relevant to stroke and aiding recovery.

Stroke Groups

You can join a stroke group and connect with others in your community affected by stroke. All stroke groups are different. They may involve exercise programmes and other social activities. There are stroke groups operated by volunteers throughout Aotearoa.

Other Places to Get Help

If your hospital team does not refer you to the services you need to support your recovery, you can ask your family doctor to refer you to additional healthcare professionals. You might do this if you want help to manage your medication, if you need equipment or adaptations to your home to improve your mobility and safety, or if you need in-home support or extra help with your rehabilitation.

Health Coaches and Health Improvement Practitioners work in many general practices and hauora provider teams, and can support you with your health and wellbeing needs and goals. You don't need a referral from your doctor and there is no cost to see them. Call your family health provider to find out what is available in your area.
